To whom it may concern:

Re : Thomas & Son. Bart

I contracted this company late in 2010 to build a driveway for off road parking for my cars following excellent references from a number of my friends.

They attended quickly to the house, gave advice about the project and returned quickly with a quote that I found acceptable.

The work was commenced quickly and was performed within the agreed timescale.

I found Thomas to be a very hard and conscientious worker, and the work was done to high standard. He even worked on a Sunday because threatened bad weather would have damaged the work he had done.

I am delighted with the work and would be happy to contract the company again.

I am happy to be contacted at the above number if you would like to confirm the validity of this reference.

Yours faithfully

Colin Whiteway
